NOTICE

The activity/course codes specified in this document are generated from the coding system that is detailed in the document *South Carolina Department of Education Activity Coding System for SASI*, issued by the Office of School Quality. When course titles change, titles/codes are deactivated, or new titles/codes are created, those changes are indicated in table 3 of this latter document in blue type. Three SDE documents that contain course titles and codes—*Activity Coding System for SASI*, *SASI Student Reporting Procedures*, and *Required Credentials for Professional Staff Members in the Instructional Programs of South Carolina’s Public Schools*—will be updated and reissued in the fall of each year. Changes will go into effect the following school year.

Introduction

In order for an educational unit to meet accreditation standards mandated by State Board of Education Regulation 43-300, its professional staff members must hold the appropriate credentials for the positions they occupy. In the context of the present document—which was originally titled “Acceptable Areas of Certification” as an attachment to R 43-130, “Accreditation Standards Filed”—the term *appropriate credentials* encompasses both proper certification and all required attendant training.

All district-office professional staff members must hold a master’s degree and must be certified in their area of primary responsibility. All teachers must be properly certified. Teachers of credit-bearing courses in grades seven and eight must hold either middle-level or secondary certification in the content area. Beginning in 2006, middle school certified teachers may also teach credit-bearing courses in grades seven and eight if they have passed the middle-level or secondary Praxis II exam in the content area. Teachers of the core academic subjects—English language arts, mathematics, science, foreign languages, civics, government, economics, history, geography, and the arts—must not only be properly certified but must also meet the “highly qualified” teacher requirements of the federal No Child Left Behind Act of 2001 (Pub. L. No. 107-110). Out-of-field permits may be issued for administrators, eligible teachers, library media specialists, and guidance counselors.

What follows in this document is a tabular listing of most district office and school positions along with the required credentials for each of those positions. Regardless of whether a specific position is listed in this document, all professional instructional staff must hold South Carolina educator certificates. If the credential requirement is an area of certification only, then the certification code for that specific area appears in a separate column. If the credential requirement includes attendant training as well as acceptable certification, then the abbreviation NC (“no code”) appears in parentheses in the code column.

All credit-bearing courses are listed in the “Grades 9–12” section of this document. To assist districts in identifying those teaching positions for which the credential requirements include training beyond acceptable certification, instructional activity codes (course codes) are provided. Credit-bearing courses carry the same activity codes if they are taught in grades seven and eight. This document makes no recommendations with regard to course sequencing.

Certificates marked with an asterisk have been discontinued by the South Carolina Department of Education (SDE). Teachers holding these certificates with current effective dates can continue to serve or teach in the positions as listed. Beginning the 2008–09 school year, the certificates that are marked here with a double dagger will not be acceptable for the positions identified.

District Professional Staff

DISTRICT ADMINISTRATORS

REQUIRED CREDENTIALS: MASTER'S DEGREE <i>and</i> CERTIFICATION IN THE AREA OF PRIMARY RESPONSIBILITY		
Position	Certif. Code	Acceptable Certification
Area/County/District Superintendent	70	Superintendent
Deputy/Assistant/Associate Superintendent Director of Instruction	71 73 72 74 70	Elementary Principal Elementary Supervisor Secondary Principal Secondary Supervisor Superintendent

Teachers

SPECIAL EDUCATION

REQUIRED CREDENTIAL: ACCEPTABLE CERTIFICATION

Note: Acceptable certification for a teacher of a *self-contained* special education class is determined by the area of disability in which all of the teacher's students are classified. In addition, special restrictions apply to the teacher's certification when students are commingled in a self-contained (i.e., cross-categorical) class. Acceptable certification for a *resource or itinerant* special education teacher is determined by the area of disability in which the majority of the teacher's students (i.e., caseload) are classified.

If a resource or itinerant teacher provides primary instruction and assigns a grade to a student with a disability who is earning a unit of credit toward the state high school diploma, that teacher must demonstrate content competency in the core subject through one of the options available to regular high school teachers.

Prekindergarten–Grade 12 Program	Certif. Code	Acceptable Certification
